Looking to inspire your guild, shop, or quilting group?
I offer a variety of adaptable workshops and trunk shows, tailored to your group's needs. With years of experience and a passion for quilting, I bring a wealth of techniques, patterns, and ideas to share. Deciding on the perfect workshop might seem overwhelming, but don't worry — I have plenty of quilts (and more in progress!) to spark creativity. Whether you're after fresh techniques or just a fun experience,
I'd love to bring my passion to your next event.
Let's create something amazing together!

Your Jacket - Your Way **Lecture / Trunk Show and Workshop**

Just as it says — we start with a simple jacket pattern and mix it up to create the perfect jacket for YOU. Whether it's a Kantha quilt, a beloved heirloom, a rescue quilt, or pieces stitched together just for the occasion, we'll help you transform it into a one-of-a-kind wearable work of art. With so many options, you might just be able to wear it out to dinner that night!

This is the perfect class for bridging the gap between sewists and quilters — increasing attendance and sparking fresh interest in your guild or shop. After all, who doesn't love a jacket with a good story?

Quilting on a Domestic Machine I and 2 **Hands-On Workshop**

Build confidence from the ground up! In Quilting on a Domestic 1, you'll learn sandwiching techniques and quilting basics like lines, boxes, circles, and swirls. A walking foot is required, and a ruler foot is a bonus for those ready to explore more. Even experienced quilters will pick up new tricks!

Quilting on a Domestic 2 takes it up a notch — get ready to push your machine to the limit! You'll mix the basics and add depth with more circles, squares, and spheres. Ideally, the first class is a prerequisite to keep the flow going.

Bring your everyday machine — even larger models — with extra time for setup and takedown. Whether you're a beginner or a seasoned quilter, these classes will spark creativity and boost your skills with plenty of examples and hands-on guidance!

Start to Finish – The Tricks to Get It Done! **Lecture / Trunk Show**

Quilters create for many reasons and skill levels, and there are plenty of tips to help you finish your quilt beautifully, no matter where you are in your journey.

Over the years, I've learned shortcuts and tricks that help me finish faster without sacrificing quality. People think I'm a fast sewist, but it's all about clever techniques! Bring a pen and paper — this session will be packed with time-saving ideas to help you finish your quilts in record time!

Quilt Piecing 101 **Workshop Series**

Ready to start quilting or sharpen your skills? This four or five-part class series is perfect for beginners and experienced quilters alike — whether you're joining through a shop or a guild.

We'll cover everything from color selection to cutting, stitching, and plenty of helpful tips and tricks along the way. Best of all, you'll put your new skills to work while building a fun, supportive quilting community within the class. Must know how to operate a sewing machine — and be ready for a creative and inspiring experience!

Scraptastic Quilts **Lecture / Trunk Show**

Let's be honest — many of us have more scraps than we know what to do with, and some of us just buy fabric we love! It's time to turn those piles into organized systems and creative projects.

In this session, I'll share tips and ideas for turning your scrap stash into beautiful quilts. A few minutes of play each day will help you reduce that pile and make something wonderful in the process! Don't let those scraps go to waste — let's create something amazing together!

Comfort and Cheer **Lecture / Trunk Show**

Charity quilting spreads comfort and cheer to those in need, offering a warm hug through our skills and hearts. Whether for disaster relief, shelters, or health causes, quilting for a cause can make a big difference.

With extra fabric and simple tricks, we can create beautiful quilts to brighten someone's day. I'll share free patterns, creative ideas, and ways to get involved in your community. A little effort can make a huge impact — let's do it together!

All About ME Along My Quilting Journey! **Lecture / Trunk Show**

My quilting journey began on my grandmother's lap and has grown into bigger, better projects and machines — all because I grew up thinking, "If you make it, it'll be cheaper, and people will like it more!" While those ideas haven't always held true, they've certainly led to a lot of fun along the way!

Join me as I share stories of growing up in the rag business, creating in my tiny corner of the house (which now takes up about 98% of the space!). My husband may not let me take over his closet or bathroom... yet! Get ready to laugh, be inspired, and enjoy a trunk show filled with works inspired by many artists and my own quilty adventures. It's sure to be a fun and inspiring time!
