About Me

I became interested in quilting in the ’80s. I took several classes but life got in the way and I was unable to continue my quilting journey. When my son went to college, I took a class at my local quilt store — it was “Teach a Man to Fish.” I was gone. I quilted all the time.

Then in 2021, I found Legit Kits. I became a pattern tester and to date I have made over 33 of these beautiful kits. I love the art. I love the end result. I love Legit.

These quilts require a unique set of skills that I am excited to teach. If your group or guild is interested in a trunk show or workshop, please contact me!
